#### **PROFESSIONAL EXPERIENCE**

**Gulfstream Aerospace Corporation**  
**30 Innovation Drive**  
**Savannah, GA. 31408**

**ODA Inspection AR Regulatory Consultant**

January 2015 to February 2020

- An ODA Inspection AR responsible for implementation of airworthiness, conformity, and maintenance delegated function FAA approved procedures, (TC / PC / OMA / MRA ODA), for all Gulfstream facilities worldwide. This responsibility includes all Type and Production Certification activities for new and derivative model aircraft as well as all in-service aircraft models. Acting on behalf of the Gulfstream ODA Lead Administrator, ensure compliance to all regulatory requirements assisting all ODA Inspection Unit Members companywide with regulatory requirements. Interacted with the FAA developing procedures and policy at the National and Regional level.
- ODA Lead Inspection AR at the 1 million plus square feet Savannah Service Center cultivating and mentoring apprentice Inspection AR's developing a team for FAA Manufacturing and Airworthiness approvals.

**Gulfstream Aerospace Corporation**  
**4150 Donald Douglas Drive**  
**Long Beach, CA. 90808**

**Repair Station Quality Manager**

March 2011 to January 2015

**Quality Control Supervisor / Quality Control Analyst**

June 1997 to March 2011

**Airworthiness Inspector**

February 1992 to June 1997

- **Return to Service Accomplishments** – Upon inception of this group, launched ground floor systems to standardize Return to Service processes, allowing the inspection resource to focus on primary activities. Record formatting and structure coordination with Gulfstream, Savannah provides consistent records and ARCS across the sites. Using standard procedures created intuitive systems to maintain requirements from a systems approach. Established relationships with aviation authorities worldwide assuring consistent application of requirements.
- **Quality Engineering Accomplishments** – Developed conventions and lexicon data maintaining consistency of Technical Compliance Library while enhancing the end user experience. Collaborating

with foreign authorities, streamlined training procedures reducing the cost of inspection while sustaining requirements. Automated data collection for audits and publications incorporating close loop systems.

- **Organization Designation Authorization Accomplishments** – Eliminated unnecessary procedures and simplified inspections reducing Inspection AR records by 75%.
